

SGT-DI™

THE ALL-IN-ONE BASS BOX

YOUR MAIN GAIN STAGES

These knobs are your best friends. Tweak them to create YOUR sound!

Ampeg®

VOL/COMP

This is your preamp level control. Oh, and we decided to throw in a slammin' compressor.

CAUTION, CABS ON BOARD!

Introducing the first IR Loader/Cab Simulator from Ampeg®. Choose from three Ampeg factory cabs or three of your own using the Ampeg IR Loader application (visit [ampeg.com/software](https://www.ampeg.com/software) for details).

CAB LEVEL

Independent level control of your full-resolution IRs. Keep an eye out for that red peak LED to avoid clipping.

CAB LEVEL VOL / COMP GRIT / LEVEL

SGT LEVEL

This is your SGT Overdrive level control. Tweak wisely.

TWO ICONIC SGT VOICES

With just a flick of a switch you can tap into the tube magic of the hailed B-15 or the titanic SVT®.

AUX/PHONES CIRCUIT

Use the right panel controls to shed those acrobatic riffs, or even to create your in-ear monitor mix!

SUPER GRIT TECHNOLOGY™

Use the independent Grit and Level controls to go from a clean boost to mild tube-amp saturation to all-out monster SVT grind.

ALL-NEW SWEEPABLE MID

We took that 5-way Mid switch you know and love and gave you all the frequencies in between!
